

# PIOTR ANDRZEJ POSPIECH

Piotr has worked as an intern for 10 weeks at Impact, continuing to work on his bachelor thesis with us as partners afterwards. Piotr has shown great commitment and interest throughout, acting in a professional and ambitious manner. Working on internal projects, he has demonstrated good understanding of technologies like React, Next.js, TypeScript while here, and added to this knowledge by being eager to learn and ask questions. In addition, Piotr was helpful to our other interns, ready to assist if needed. Overall, we were very pleased with having Piotr with us and are happy to recommend him, both as a developer and as a colleague, since he is just a very nice guy.
